PROFILE

I'm a data visualization and information designer with a computer science background and experience in scientific figure design, network visualization, and exploratory user research. I create visual explanations and interactive tools for research and public audiences.

EXPERIENCE

Research Assistant, Data Visualization and Graphic Design

Games for Life, Northeastern University · *Sep 2026–Present*

- Create data visualizations and graphics for an industry-facing report on age-friendly gaming and responsible AI within an NSF ReDDDoT-supported initiative.
- Synthesize research findings and contribute to website updates and research communication.

Research Assistant, Network Visualization

Northeastern University London · *Jun–Jul 2026*

- Designed views and interactions for AI Ethics Network, a tool exploring 534 keywords, thematic communities, and publication sources.
- Contributed code, debugging, and implementation review to a deployed Svelte and D3.js tool featured in the team's unpublished manuscript draft.

Research Co-op / Network Visualization Specialist

Network Science Institute · *Jul 2025–May 2026*

- Curated data and analyzed a coauthorship network of 2,737 faculty members and 3,650 ties for Inside the Institution.
- Designed and implemented three exploratory views, scholar search, organizational filters, and profile panels.
- Conducted an exploratory evaluation with 20 participants using tasks, questionnaires, and written feedback.
- Translated the research into an MFA thesis and a NetSci 2026 poster.

SELECTED PROJECTS

Citing Less Critically *Nov 2025–Aug 2026*

- Designed the final framework figure through six rounds of team feedback and created the social-distance schematic.
- Built a pipeline matching 115,278 of 132,913 human-baseline citation slots to Dimensions records, yielding 86.7% coverage.
- Helped calibrate annotation definitions and independently annotated citation intent.

Ripples into Silence *Jan–Apr 2025, revised Sep 2026*

- Built a D3.js data story covering 95 records and 833 people recorded as dead or missing near Lampedusa, 2014–2025.
- Used ripples, consistent annual scales, and continuous transitions from record marks to equal-sized circles, each representing one person.

ADDITIONAL EXPERIENCE

Software Engineering Intern *Axis Communications* · *Shanghai, China* · *Jul–Aug 2021*

- Refactored camera-platform initialization in embedded C++, reducing system boot time by 15%.

Visual Design Intern *Shanghai Media Group* · *Shanghai, China* · *May–Aug 2020*

- Designed promotional visuals for television and social media.

PUBLICATIONS

Citing Less Critically: LLMs Reshape the Rhetoric and Reach of Scientific Citation.

Y. Liu, L. Chen, Z. Liu, J. Lu, and D. Murray. EMNLP 2026 (Main Conference)

EDUCATION

Northeastern University **Master of Fine Arts** in Information Design and Data Visualization

Boston, MA · Expected Dec 2026 · GPA: 3.93

Tongji University **Bachelor of Engineering** in Computer Science and Technology

Shanghai, China · Jul 2022 · GPA: 3.70

SKILLS

Design

Information design, network visualization, scientific figures, scrollytelling, Figma, Adobe Creative Suite

Research

Data curation, exploratory evaluation, questionnaire design, thematic analysis

Development

D3.js, JavaScript, Python, pandas, HTML/CSS, SVG, Canvas, Git
