PROFILE

I'm a designer and developer focused on interactive data interfaces. I connect information architecture, visual design, and front-end implementation, with experience in D3.js, Svelte, responsive design, and automated data workflows.

EXPERIENCE

Research Assistant, Data Visualization and Graphic Design

Games for Life, Northeastern University · *Sep 2026–Present*

- Create data visualizations and graphics for an industry-facing report on age-friendly gaming and responsible AI within an NSF ReDDDoT-supported initiative.
- Synthesize research findings and contribute to website updates and research communication.

Research Assistant, Network Visualization

Northeastern University London · *Jun–Jul 2026*

- Designed views and interactions for AI Ethics Network, a deployed tool exploring 534 keywords, thematic communities, and publication sources; the team included it in an unpublished manuscript draft.
- Specified neighborhood selection, shortest-path exploration, and SVG export; contributed code, debugging, and implementation review to a Svelte and D3.js application largely coded by Claude Code.

Research Co-op / Network Visualization Specialist

Network Science Institute · *Jul 2025–May 2026*

- Designed and implemented Inside the Institution, a D3.js prototype with three views, scholar search, organizational filters, and profile panels for 2,737 faculty members and 3,650 coauthorship ties.
- Conducted an exploratory evaluation with 20 participants using tasks, questionnaires, and written feedback; produced an MFA thesis and NetSci 2026 poster.

SELECTED PROJECTS

Barboard *Apr 2026–Present*

- Designed and shipped responsive charts, contest archives, and member profiles with a shared contest-page renderer.
- Scheduled Python retrieval and JSON conversion with GitHub Actions, retaining existing data if chart requests fail.
- Continue expanding community features and migrating the site to separate front-end and back-end architecture.

Barvision Chongqing 2026 *Jun–Aug 2026*

- Designed visual identity, motion graphics, and keyboard-driven playback interactions; reviewed implementation of a browser player for the final, largely coded by Claude Code.
- Organized, hosted, and operated three live broadcasts solo, including a roughly three-hour final with 26 segments and 242 operator key presses.

ADDITIONAL EXPERIENCE

Software Engineering Intern ***Axis Communications*** · *Shanghai, China* · *Jul–Aug 2021*

- Refactored camera-platform initialization in embedded C++, reducing system boot time by 15%.

Visual Design Intern ***Shanghai Media Group*** · *Shanghai, China* · *May–Aug 2020*

- Designed promotional visuals for television and social media.

PUBLICATIONS

Citing Less Critically: LLMs Reshape the Rhetoric and Reach of Scientific Citation.

Y. Liu, L. Chen, Z. Liu, J. Lu, and D. Murray. EMNLP 2026 (Main Conference)

EDUCATION

Northeastern University **Master of Fine Arts** in Information Design and Data Visualization

Boston, MA · Expected Dec 2026 · GPA: 3.93

Tongji University **Bachelor of Engineering** in Computer Science and Technology

Shanghai, China · Jul 2022 · GPA: 3.70

SKILLS

Development

JavaScript, D3.js, Svelte, HTML/CSS, Python, pandas, SVG, Canvas

Workflow

Git, GitHub Actions, JSON, debugging, implementation review

Design

Interaction design, information architecture, responsive design, scrollytelling, Adobe Creative Suite, Figma
